BELLAMBI HEIGHTS BATTERY ENERGY STORAGE SYSTEM

Project Update November 2026

CONSTRUCTION WORKS

Works underway this month

Civil and structural works

- Stormwater and firefighting work, including firewater tanks, has been completed.
- Internal road works are ongoing.

Procurement and equipment installation

- All BESS and PCS inverters have now been installed on site.
- Both electrical houses have been delivered to site and installed.
- Medium voltage kiosk deliveries have begun.

Electrical works

- Cable pulling and termination work to the substation is ongoing.
- Earthing installation work is continuing.
- Initial commissioning activities have commenced.

Substation works

- The second transmission line outage for optical ground wire works has been successfully completed.
- The first power transformer has been delivered to site, with assembly and commissioning works now underway.
- Installation of 330kV equipment is continuing.

COMMUNITY SPONSORSHIP PROGRAM

Recipients to be announced soon

Applications for Vena Energy's inaugural 2026 Mid-Western Region Community Sponsorship Program have now closed. Thank you to the many individuals, community groups and organisations that submitted initiatives to support a greener and more sustainable future for the region. Successful applicants are being notified, with an announcement to be made in the coming weeks.

FEEDBACK

Vena Energy is committed to delivering lasting environmental, social and economic benefits to the communities that host our projects.
